

Go beyond a shortlist. Move hiring forward.

Mira, your AI recruiter, takes the work from job brief to sourcing, approved outreach, screening, and interview scheduling. You set the bar and make the hiring decisions.

AI RECRUITING PLATFORM · PRODUCT & SERVICES · SEPTEMBER 2026

Your next hire needs more than a better search bar.

01

FOUNDERS & HIRING MANAGERS

Keep the team moving.

Turn a hiring need into an active search, while staying close to the candidates who matter.

02

LEAN RECRUITING TEAMS

Make room for better conversations.

Let Mira handle sourcing and follow-up so your recruiters can focus on evaluation and candidate relationships.

03

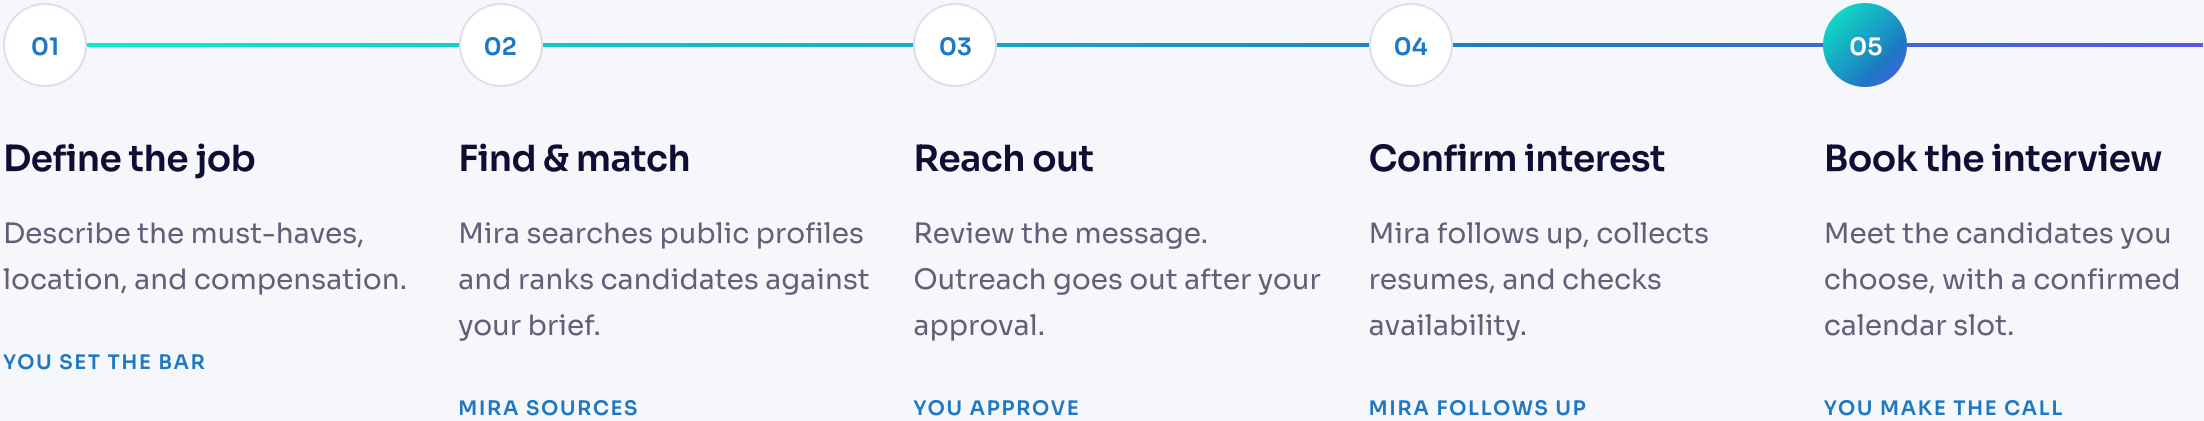

TEAMS HIRING ACROSS MARKETS

Build a repeatable hiring rhythm.

Run each new job with a clear brief, a visible shortlist, and one place to track the next step.

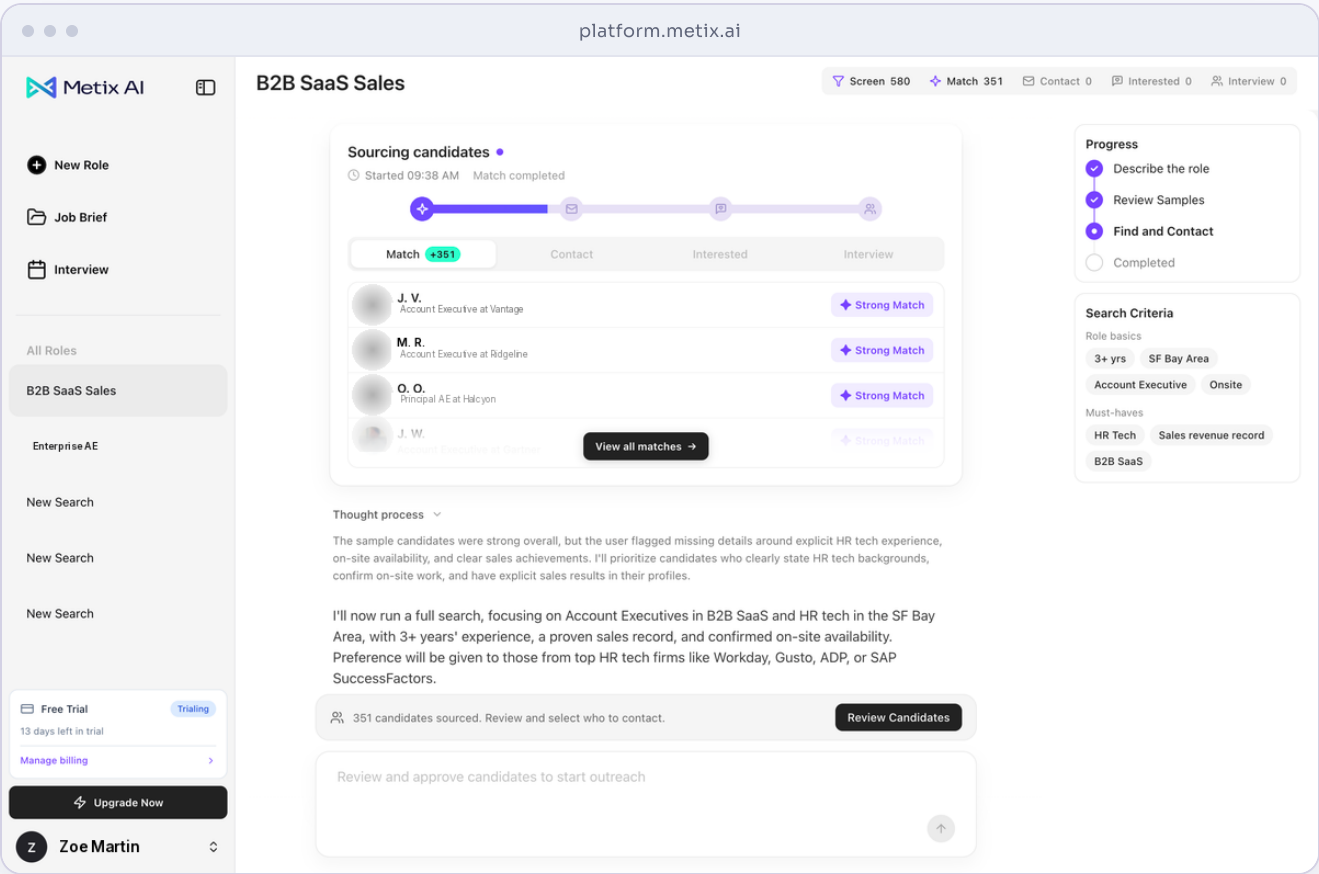

A single workflow for the repetitive work between “we need someone” and “let’s meet.”

One brief. A connected path to the interview.

Search, candidate communication, and scheduling stay connected, so you can see what has happened and what needs your input.

See the search. Shape the shortlist.

AI AGENT WORKFLOW

Mira runs the hiring workflow

Start one AI Agent for each new job. Mira sources, screens, sends approved outreach, follows up, and schedules interviews.

0 Credits spent on that Agent's workflow

The allowance counts new Agents each month, not simultaneous jobs. Existing Agents continue; closing one does not restore the allowance.

SELF-SERVE SEARCH

Explore and decide yourself

Search without spending Credits. Use your monthly Credits when you unlock a contact or run a Deep Search yourself.

10	100
Credits / contact unlock	Credits / Deep Search

Need an extra AI Agent this month? Each additional Agent above your allowance uses 3,000 Credits. Deep Search is charged when it returns candidates; a conversation or empty result is not charged.

Mira handles the legwork. You shape the hire.

MIRA

Find. Follow up. Coordinate.

Search and match profiles; prepare outreach for your approval; screen replies for interest; collect resumes and availability; schedule interviews.

On subscription plans, your team owns these human checkpoints. If you want a Metix team member to run the search and provide agreed quality reviews, choose the separately scoped Delivery service.

YOUR TEAM

Set the bar. Approve. Decide.

Define the job and must-haves; approve every outreach message; review candidates; conduct interviews; make the offer and hiring decisions.

All plans include the Agent workflow from sourcing to interview scheduling. Scale also lists custom integrations, SLA terms, and volume pricing, with details scoped on a demo.

Fixed subscriptions, billed for the term regardless of hiring results. Annual billing saves about 10%; Agents and Credits are still issued monthly and unused allowances do not roll over. Prices exclude applicable taxes. [Full plan details.](#)

Keep the interviews. Hand over the daily search work.

A named person on our side, from day one.

Delivery service is a separate engagement on the same Metix platform. You set the brief, approve the outreach messaging, give feedback, and make every interview and hiring decision.

Scope is agreed on a demo, with fees and the start date set in a signed Order. It is separate from every subscription tier, including Scale's customer success support.

01

Calibrate the brief

Your named delivery lead aligns the search with your must-haves.

02

Run and review the search

Our team runs Mira, with quality review at the checkpoints agreed in your Order.

03

Keep you close to the outcome

Kickoff, a Day 7 check-in, and a written readout within the agreed role cycle.

One open job is enough to discuss. Interview counts and hires are not promised; the scope, responsibilities, and review cadence are agreed in writing.
