Why dual-engine

Hiring is the slowest, most manual process in a growing company. A single role takes weeks of sourcing and tens of thousands in agency fees, and your team still does the work. **Metix AI rebuilds hiring on two engines:** Mira (the AI Agent) runs the full pipeline for volume and speed, while senior recruiters take on the quality and difficulty of high-end roles.

Backed by a **talent graph of 860M+ profiles** across 190+ countries, purpose-built for three high-growth tracks — Global Expansion, Robotics, and AI — it delivers your first validated shortlist **within 24 hours**.

CORE ADVANTAGE

The dual-engine advantage

AI Agent

UNLIMITED CAPACITY ENGINE

Runs the full pipeline autonomously — **sourcing → engaging → screening → scheduling**. Locks onto the best-fit candidates, and gets sharper with every hire.

Elite Recruiter

DEEP JUDGMENT ENGINE

Targeted executive search, deep candidate assessment, complex offer negotiation, and onboarding. Focused on **quality and difficulty** — winning the senior talent AI alone can't reach.

No breakpoints · no blind spots

Mira handles volume and speed; senior experts handle quality and difficulty — a **breakthrough in both efficiency and quality**.

Autonomous. Precise. Outcome-based. Driven by **Mira** and senior experts, together.

01 Mira's autonomous recruiting engine

Five capabilities span the full pipeline — from brief to booked interview, your team meets finalists, not resumes.

BRIEF AGENT

Intelligent role brief

Turns one conversation into a **structured role profile** — including the preferences you never wrote down.

SEARCH AGENT

860M+ talent graph

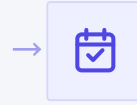

Ranked by fit and **genuine openness to move**, across 190+ countries and 50+ industries.

OUTREACH AGENT

Multi-channel outreach

Automated multi-round outreach over email and WhatsApp — **3x higher reply rates**.

SCHEDULE AGENT

Automatic scheduling

Once a candidate confirms, interviews sync **straight to your team's calendar** — zero manual coordination.

Self-improving by design: every interview outcome feeds back into Search, so Mira gets sharper with each hire — turning judgment into lasting system capability.

02 Four ways to deploy

One AI engine, matched to how your team wants to hire. From fully self-serve to fully embedded.

PURE AI

AI Recruiting Agent

Mira automates the full pipeline, with multi-channel personalized outreach and automated follow-up. Self-serve SaaS, ready out of the box — ideal for high-volume IC roles.

EXPERT

Headhunting

AI shortlisting plus senior headhunters as a second check. Deep human assessment, outreach, and negotiation, for senior and hard-to-fill roles.

FDR

Forward Deployed Recruiter

A dedicated, AI-powered recruiter embedded in your team. Works alongside your hiring managers in real time, for high-volume or ongoing hiring.

FLEXIBLE

Staffing & Contracting

Automated sourcing, skill matching, and contract management. Built for temporary and project-based hiring, with compliance and risk controls included.
